Deborah Taylor Tate
Chairman
Tennessee Regulatory Authority
460 James Robertson Parkway
Nashville, TN 37243-0505

DOCKET NO.
04-00111

Dear Ms. Tate:

Please accept this letter as a formal request for approval of an additional NPA/NXX in the Knoxville, TN exchange for NuVox Communications, Inc. ("NuVox"). The purpose is to establish a new Local Routing Number (LRN) in each of the markets.

Current Need:

NuVox has recently implemented a new switch that is capable of serving the Knoxville, TN area. In order for the new switch to receive call traffic a Local Routing Number (LRN) is required and NuVox would like to obtain this approval as quickly as possible so that these switches can become operational.

Block Allocation Rules:

NuVox does not meet NPA criteria for allocation of a thousands-block¹ based on actual and forecasted growth. However NPA Guidelines provide for exceptions to the number resource exhaust time frame in circumstances where technical limitations exist². In these instances the NPA requires approval of the state commission before additional number resources will be allocated.

Requested Number Block:

NuVox respectfully request approval of the one additional NPA/NXX in order to establish a new Local Routing Number. A copy of Part 1 (Thousands Block Application Form) that has been submitted to NPA is enclosed with this letter.

If additional information is required please do not hesitate to contact me directly at 864-331-8067 or by e-mail dcarmean@nuvox.com.

Thank you for your attention to this matter.

Sincerely,

Deborah Carmean
Number Pooling Analyst

1 ATIS THOUSANDS-BLOCK NUMBER (NXX-X) POOLING ADMINISTRATION GUIDELINES. ¶ 8 3 4 *For growth thousands-block allocations, the following applicable criteria shall be used by the PA in reviewing a thousands-block request from a SP*

The applicants must demonstrate that existing numbering resources for the rate center will exhaust within 6 months (FCC 00 429 ¶ 29)

2 ATIS THOUSANDS-BLOCK NUMBER (NXX-X) POOLING ADMINISTRATION GUIDELINES ¶ 8 3 4 4b The applicant demonstrates that an additional thousands-block(s) is necessary because currently allocated TNs/thousands-blocks cannot be utilized due to a technical limitation or administrative constraint. Some examples of the technical limitation or constraint are limitations on Customer Premise Equipment (CPE), SP internal thousands-block administration restrictions (e.g., administration of a thousands-block across multiple switches within a rate area), and potential situations such as unique AIN triggers

Explanation

NEW LRN NEEDED FOR NEW SWITCH

- 1 A copy of this worksheet is required to be submitted to the Pooling Administrator when requesting additional numbering resources in a rate center. For auditing purposes, the applicant must retain a copy of this document.
- 2 Net change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month #1, and Month #6 as the current month
- 3 Forecast of TNs needed in each following month, starting with the most recent month as Month #1
- 4 To be assigned an additional thousands-block (NXX-X) for growth, "Months to Exhaust" must be less than or equal to 6 months. (FCC 00-104, § 52.15 (g)(3)(iii)).
- 5 Newly acquired numbers may be excluded from the Utilization calculation (FCC 00104, section 52.15 (g) (3)(ii))
